5th Street Bridge East Bound Closure

Friday, March 9, 2018, at 7:00 pm through 7:00 pm Sunday, March 11, 2018, construction crews will be removing the Railroad Bridge over the eastbound entrance of the 5th Street Bridge. Only the East Bound Bridge Street on-ramp will be closed to allow the construction crews to demolish the existing Railroad Bridge as part of the construction of the new 5th Street Bridge Replacement Project.

The westbound entrance to Yuba City from Marysville will remain open during the removal of the Railroad Bridge over the Bridge Street eastbound on-ramp. Those traveling eastbound into Marysville should use alternate routes to the 10th Street Bridge.

The City of Yuba City is committed to providing the highest quality service; while we expect impacts to be minimal, we thank all residents who travel on the 5th Street Bridge for their cooperation and understanding. If you have any questions or concerns regarding the planned eastbound closure, please contact Paul Chang at 530-763-4789 or bridge@yubacity.net
